PRESIDENT SIGNS RAILROAD BILL

ALL RAIL PROPERTY WILL REVERT BACK TO OWNERS AT MIDNIGHT SUNDAY

Powers Conferred Upon the Executive by the Bill Vested in Director General Walker D. Hines—Also Answers Appeal to Various Brotherhoods Asking for Veto of Measure

WASHINGTON, Feb. 28.—President Wilson signed the railroad bill tonight, on the eve of the return of the roads to their owners and to private operation.

In a proclamation issued at the time the bill was signed, Mr. Wilson vested in Walker D. Hines, director general of railroads, virtually all powers conferred upon the executive by the blil. Mr. Hines will also continue to exercise the duties of Director General which continue beyond the return of the roads to private control at midnight tomorrow night.

The white house also made public the text of the president's reply to a recent request of representatives of the railroad brotherhoods that he appoint a commission composed equally of employers and employes' delegates to consider wage demands made by the brotherhoods. It deals wholly with the wage settlement proposals and does not refer directly to the memorial later presented by the brotherhood heads asking that he veto the railroad bill.

In his letter Mr. Wilson said the passage of the railroad bill, 'made it evident that I could not act on your suggestions until it should have been determined whether the bill would become a law or not."

"It was manifest," the letter continued," that if the bill should become a law the negotiations and consideration of the wage matter ought to proceed in harmony therewith.

"The bill having now become a law, the way is open for immediate action on the wage matter in accordance with the terms of the bill. Section 301 of the bill evidently contemplates that the carriers and employes should, as suggested by you, select representatives who will thus constitute a bi-partisan board for the purpose of attempting by conference to agree upon a solution of this wage proglem.

"In accordance with the assurance I gave last August and repeated in substance in my letter of the thirteenth instant, I shall at once request the carriers and the employes to join in this action. I believe such a step will go toward clarifying and maturinging the subject for final disposition. In fact the sort of board thus contemplated by Section 301 appears to be an appropriate substitute for the committee of experts which I have heretofore suggested, and indeed such a board will be authorized to go further than such a committee could have gone.

"While it is true that the provision of Section 307 of the railorad bill relating to the labor obard will probably also come into operation as to this wage matter nevertheless the bi-partisan board can make a great deal of progress which will materially diminish the time to be consumed by the labor board and while the bi-partisan board is functioning the appointment and organization of labor board can be expedited.

"I cannot share the apprehension of yourselves and your constituents as to the provisions of the law concerning the labor board. I believe these provisions are not only appropriate in the interest of the public which after all is principally composed of workers and their families, but will be found to be particularly in the interest of railroad employes as a class.

"The argument that the public representatives on the labor board will be prejudiced against labor because drawn from classes of society antagonistic to labor can and ought to be overcome by selecting such public representatives as cannot be charged with any such prejudices. Nor do I anticipate that the public representatives will be against wage increases because they involve rate increases.

"Not only must public representatives be selected who can be relied upon to do justice but the bill itself provides is that the labor board shall establish rates and wages and salaries which in the opinion of the board are 'just and reasonable' and it is further provided that the entire labor board shall be guided by the very important standards which are provided in the law, those standards including the wages paid for similar kinds of work in other industries, the relation between wages and the cost of living, the hazards of the employment, the training and skill required, the degree of responsibility the character and irregularities of the employment, and the correction of inequalities as the result of previous adjustments. Coupled with the direction to the labor board to take into consideration these important standards is the highly important direction to the commission to prescribe rates sufficient to admit of the payment of the reasonable operating expenses including, of course, fair and rate of wages.

"My hopes are that putting into effect these provisions with a carefully selected board whose public representatives can be relied upon to be fair to labor and to appreciate the point of view of labor that is not longer to be considered as a mere commodity will mark the beginning of a new era of better understnding between the railroad managements and their employes, and will furnish additional safeguards to the just interests of railroad labor.

"I am sure that every agency which will be involved in the creation of the labor board and in the conduct of negotiations fully appreciates that the wage demands are entitled to the earliest possible consideration and disposition and therefore I do not anticipate delay in the appointment and organization of the labor board or in the other necessary steps."

Investing Mr. Hines with the powers granted to the president by the bill, Mr. Wilson made one exception. The president will himself later name the agent or agency of the government against whom suit may be brought to satisfy claims arising out of government control of the railroads as provided in Section 206 of the act.

POTASH PRODUCTION IN GERMANY INCREASES

WASHINGTON, Feb. 28.—Production of potash in Germany last month reached the record total of 550,000 tons, an official dispatch today said. The greatly increased output was ascribed to improved industrial conditions.

A project is under way, the dispatch said to import anthracite coal from the United States as this fuel is urgently needed in the potash industry.

CONTINUATION OF FUEL ADMINISTRATION ORDERED BY WILSON

Powers Will be Divided by Director General and Commission of Four

(By The Associated Press)

WASHINGTON, Feb. 28.—Coincident with the signing of the railroad bill tonight, President Wilson issued executive orders providing for continuation of the powers of the fuel administration but dividing them between the director general of railroads and a commission of four. Director General Hines wil retain jurisdiction over domestic distribution while the comission will handle bunker and export coal maters.

The commission will be composed of A. W. Howe, Rembrandt Peale, F. M. Whittaker and J. F. Fisher. It will function thru the Tidewater Coal Exchange, which is restored for that purpose, having been suspended before the resignation of Dr. Garfield as fuel administrator.

eral Hines will retain jurisdiction sion is effective until April 30 next.

The order creating the commistaken "because of the present an adequate supply and equitable distribution and to facilitate the emergency and in order to insure movement, and to prevent locally or generaly scarcity of coal.

It directs specifically that the order issued by the United States fuel administration Nov. 6, 1917, "relative to Tidewater trans-shipment of coal at Hampton Roads, Baltimore, Philadelphia and New York and for the employment and cooperation with the Tidewater Coal Exchange as a common agency to facilitate trans-shipment and to reduce delays in the use of coal cars and coal carrying vessels'" suspended by Dr. Garfield Feb. 20, 1919, be reinstated.

The commissioners named are authorized to exercise the powers reserved to the United States fuel administrator by said order of November 6, 1917, and they are further, from and after 12:01 o'clock A. M. on March 1, 1920, vested with the authority now vested in the director general of railroads relative to the export of coal from the United States.

The second order, investing Mr. Hines with the powers of fuel administrator so far as domestic distribution is concerned said doubt had arisen as to whether he could continue to exercise those powers after the return of the railroads to private control. A new order was therefore executed extending Mr. Hines' authority beyond the date of the return.

CANCEL PLANS FOR INVESTIGATION

(By The Associated Press)

IRON RIVER, Mich., Feb. 28.—J. E. Converse, assistant attorney general of Michigan, today announced he had cancelled plans for a public investigation of the Iron county prohibition squabble and would leave for Lansing tonight. His announcement followed a conference with George R. Cummerow, special agent of the department of justice and Martin S. McDonough, prosecuting attorney of Iron county, which the two investigators, federal and state, agreed to cooperate.

Mr. Cummerow has practically completed a full investigation of the so-called open revolt at noon and Mr. Converse said he would take no steps until Mr. Cummerow had completed his report and filed it with Myron H. Walker, district attorney at Grand Rapids next Tuesday.

LITTLE HOPE FOR AN AGREEMENT ON THE PEACE TREATY

Hitchcock and Borah Align to Defeat Ratification

VOTE LATE NEXT WEEK

(By The Associated Press)

WASHINGTON, Feb. 28.—Another day of oratory and maneuvering in the senate ended tonight with virtually all elements in the treaty fight agreeing that ratification seemed far away.

Getting down to rock bottom in their calculations the leaders are understood to have agreed that unless some unexpected circumstance alters the senate alignment altho votes cannot be brought together to either modify the Republican article ten reservation or secure ratification of the treaty without such a modification. In this situation as disposition became apparent to bring the senate debate to an end, and let the issue go undecided into the political campaign. By unanimous consent it was agreed to vote Monday on the reservation which has been pending for two days and in some quarters it was predicted that a final vote on the treaty itself would be reached before the end of next week.

At last twenty Democrats it was said on both sides apparently were determined to stand steadfastly with President Wilson in opposing ratification unless a change could be made in the article ten reservation which the president has said would cut the heart out of the treaty.

In addition there are at least fourteen Republicans and Democrats banded together in the irreconcilable comp against ratification in any form and it would take a total of only 33 votes to defeat any ratification resolution.

The determination of the administration Democrats to fight to the last ditch for their position became more marked during the day's conferences and in some quarters it was intimated they had heard again from the white house regarding article ten. The party leader, Senator Hitchcock of Nebraska said no new communication on the subject had come thru him, but added that he had no reason to believe the president had changed his mind.

As one result of the situation the administration forces and the irreconcilables who have been arch enemies thruout the long treaty controversy have been thrown together in interest and thru their leaders are understood to have agreement to keep in close touch during next week's maneuvering. They did so today, Senator Hitchcock, and Senator Borah, Republican, Idaho, among the irreconcilable group, holding frequent consultations. In the same way the break between Senator Hitchcock and the mild reservation Republicans with whom he has worked for many weeks for a compromise, was brought to an open breach during the day's debatee.

In sharp clashes with Senators Kellogg, Minnesota and Lenroot, Wisconsin, both of the mild reservation group, the Democratic leader declared that while they has posed as friends of the treaty they had worked by "contemptible" means to lineup the Republicans for destroying reservations.

Senator Hitchcock also charged that Senator Kellogg had conspired to "help pack the foreign relations committee with enemies of the treaty," an assertion which drew a heated denial from the Minnesota senator.

He said he had wanted ratification from the first and added that while he "congratulated" Senators Hitchcock and Borah on "their new alliance" he could not wish them success.

COURSE TO BE TAKEN BY STATE IN ROAD BUILDING REACHED

Only the Completion of 440 Miles Contracted for Will Be Constructed

(By The Associated Press)

SPRINGFIELD, Ill., Feb. 28.—The 1920 road building program in Illinois will consist of completion of the 440 miles already contracted for and "such additional mileage as can be built at anything like a reasonable price." This was decided today at a meeting of Governor Lowden with state highway officials and others interested in road construction.

Unless future bids show a considerable reduction from the $50,000 a mile figure reached in bids recently received the 1,100 mile program for 1920 announced at the beginning of the year will be abandoned and none of the roads contemplated under the $60,000,000 bond issue will be constructed.

The decision reached at the governor's conference today was outlined in the following statement:

"At a conference of the state highway officials members of the highway advisory board, representatives of the Illinois Highway improvement association, representative motorists and others with Governor Lowden, it was unanimously decided that the state will use every influence to complete this year all uncompleted roads now under contract, amounting to about 440 miles of the federal aid system, and will contract to construct such additional mileage as can be built at anything like a reasonable price. The ability to secure cars will largely determine the program. It is expected that location, surveys and grading and possibly som bridge work on other roads included in the sixty million dollar bond issue system will go forward."

Highway officials declined to comment on the statement. No explanation was offered as to what would constitute "reasonable price."

The 440 miles of road that are to be built under contracts awarded last week will cost approximately $22,000 a mile.

MURPHY WINS LOS ANGELES AUTO RACE

(By The Associated Press)

LOS ANGELES, Cal., Feb. 28.—Jimmie Murphy, long known to automobile racing men as a mechanician, made his initial western appearance as a driver today and won the Los Angeles Speedway 250 mile opening race and $10,000 first prize money. Murphy came from behind when Joe Boyer, who had been in front for forty four laps, was forced to the pits by a broken connecting rod that put him out of the race.

Murphy's time was two hours, 26 minutes, 17.69 seconds, or an average speed of 103.2 miles an hour.

Ira Vail came in second, capturing $6,000 prize money and Joe Thomas was third, winning $3,000.

No serious accidents marred the race. A thrill was sent thru the stands when Art Klein and his mechanician skidded on the end turn of the big oval after a front wheel had dished. The car threw both of them clear, and finally subsided. Neither man was hurt.

SENATE CRITICIZES WILSON'S STAND ON ADRIATIC DISPUTE

Both Sides Join in Attack on President's Course

DEFENDED BY HITCHCOCK

(By The Associated Press)

WASHINGTON, Feb. 28.—While President Wilson was considering today the latest note of the allied premiers on the Adriatic controversy, sharp criticism of the executive's course in the negotiations broke out in the midst of the peace treaty debate in the senate.

Not only the irreconcilable opponents of the treaty but one of the mild reservation Republicans, Senator Kellogg of Minnesota, joined the attack which occupied a good part of the day's session. A general defense of the president was made by Senator Hitchcock, of Nebraska, the administration leader. It was indicated that Mr. Wilson would not long delay his reply to the allied note which was said to have invited the United States to join in attempting a settlement acceptable to Jugo-Slavia, and Italy. The reply was expected to go forward early next week, but officials were guarded in their discussion of its probable contents.

The senate discussion revolved around assertions that the disagreement demonstrated concretely the foreign complications which would follow America's entrance into the league of nations and that the president was seeking to interfere in the affairs of other nations without making any effort to learn whether the people of this country were behind him.

Senator Thomas, Democrat, Colorado, one of the treaty irreconcilables went so far as to suggest that the only way out now seemed to be a war in which the United States either must participate or else be placed in the position of refusing to back up the positive stand taken on behalf of the nation by the president.

The whole situation was characterized by Senator Kellogg, as "rather discouraging" to friends of the treaty. He declared the Adriatic controversy was "none of our business and that the president's attempt to dictate"a decison was without justification.

Senators Borah, Republican, Idaho and Brandegee, Republican Connecticut also assailed the position taken by the executive the latter saying that altho Mr. Wilson was presuming to speak with a maximum of assurances as to what the United States would or would not do, there was no one really knew how even the senate would vote on the proposition.

NEW AIRPLANE MOTOR ACCEPTED

NEW YORK, Feb. 28.—Acceptance by the army air service of an airplane motor which while driving a plane in flight automatically shoots in rapid sucession shells one and one half inches in diameter weighting a pound, was announced today by the Manufacturers Aircraft association. The airplane cannon, which is of Wright-Hispano design was built to pierce armored airplanes, tanks, submarines and dirigibles.

The motor is a modification of those used in the war.

GUNMEN GIVEN QUICK ACTION

Milwaukee, Feb. 28.—Twenty-five years in the state prison at Waupun was the sentence meted out today to two Chicago gunmen, within six hours of their capture by Milwaukee police after a series of hold-ups thruout the city, culminating in the theft of a green taxi-cab, in which they had forced a driver to pilot them. The bandits gave the names of Walter McDaniels, 21, Chicago, and Walter Neil, 25, who said he came from Detroit.

SUCCESSOR TO POWELL APPOINTED BY LOWDEN

SPRINGFIELD, Ill., Feb. 28.—Governor Lowden today appointed Charles E. Perdunn of Marshall, Clark county, Democratic member of the Illinois Civil Service Commission to succeed the late Henry M. Powell of Peoria. Mr. Perdunn was formerly a member of the Illinois house of representatives.

FRENCH RAILWAY LINES TIED UP BY GENERAL STRIKE

Government Attempting to Organize Volunteers to Replace Strikers

(By The Associated Press)

PARIS, Feb. 28.—Trainmen and other employes on all the railway lines of France have been called out by a general strike order issued early today by the National Federation of Railwaymen. Limited train service was maintained thruout today, however, with the aid of men mobilized from the railway division of the army and civilians who offered their services.

The ministry of public works has organized a service to enroll volunteers to replace the strikers, to operate automobiles and aid in the work of victualling.

The national federation of railway workers tonight formally issued the conditions on which the strikers will return to work. These consist of recognition of the union, application of the proposed graded wage scale, joint gievance commissions, immediate consideration of the future status of the railroads and no strike reprisals.

The general federation of labor has a declaration asserting its solidarity with the railway men, assuring the public of the justice of their causes and affirming that the present situation represents an attack on union rights which the law recognizes.

"It is a question of unionization of the railwaymen, or returning the railroads to the public," the declaration says.

Arrests and searches have been ordered against the authors of alleged seditious articles in Le Libertaire, construed as appealing to railroad men and the 1920 class of conscripts to rebel, pillage, steal and desert

LeLibertaire has been suppressed.

The arrest also is contemplated of those alleged to have appealed to the mobilized railroad men not to respond. President Deschanel has decreed that the law, passed Friday which provides for the requisitioning of automobiles, motor trucks and airplanes in case of necessity, be applied to the territory traversed by the lines of the Paris, Lyons and Mediterranean company and the State, Orleans, Midi and East companies.

MOVING PRIVATE STOCKS PERMISSIBLE

(By The Associated Press)

WASHINGTON, Feb. 28.—Liquor owners may transfer their stocks legally from one dwelling to another only when there is an actual change of residence and then only under special permit according to an announcement today by the internal Revenue Bureau issued to correct published reports that owners of two or more dwellings might move their stock from one to the other unhampered.

"This ruling is not construed to mean," the statement says, "that a person who owns a shooting lodge in Maine, a winter residence in Florida and a private dwelling in New York, may transport liquor for beverage purposes from one to another. Liquor so transported and the vehicles in which it is conveyed are subject to seizure. The person transporting it is subject to arrest."

PRICE OF WHISKEY IN ILLINOIS $24 GALLON

CHICAGO, Feb. 28.—Whiskey in Illinois will continue to sell at $24 a gallon, it was decided today by the fair price commission.

Major A. A. Sprague, chairman of the committee reversed a decision arrived at earlier in the week at a conference of "the big four"—Major Sprague, Captain Hubert Howard, prohibition enforcement director for Illinois; Harry W. Mager, collector of internal revenue and Charles F. Clyne, district attorney. It was declared that whiskey is a necessity of life in the previous ruling.

Major Sprague today declared that whiskey was a luxury and and had no place on the fair price list, which is reserved for necessities.

FINED FOR SHORT MEASURING MILK

LaCrosse, Wis., Feb. 28.—"Stealing milk from babies is beyond the limit of human endurance in the profiteering age," said Judge C. W. Hunt in police court here when he fined Melvin Nutson, dairyman, $50 for the alleged selling of milk short measure. The court promised to send the next dairyman caught cheating to jail.

DEVELOPMENT OF AGRICULTURE IS URGED BY HOOVER

Must Keep Pace With Industry in Reconstruction

DECLARES IT A GREAT PROBLEM

(By The Associated Press)

CHICAGO, Feb. 28.—Development of agriculture to keep pace with that of industry is one of the greatest reconstruction problems facing the country, Herbert Hoover declared tonight in an address before the western society of engineers. Industries are drawing workers from the farms, he pointed out and if we should develop our exports of industries during the next five years as rapidly as we have during the last five years we shall by that time be faced with the necessity of importing foodstuffs. The problem is more than an economic one, he asserted because from dependence on overseas applies for food "we will be concerned about their safety and find ourselves discussing the domination of the seas. Our international relations will become more difficult he said and unless the league of nations serves its ideal. America will need to burden herself with more taxation, maintain great military and naval forces and imperil the development of our national life, which rests in the spirit of our farms and surrounds our villages."

Great as is the need for constructive thought and action in regard to the weakness of our industrial relations, he said, "the need for similar thought and similar activity is still greater with regard to agriculture. The agriculture industry must be made economically attractive. This can be accomplished he declared by remedying the defects in our transportation and distribution systems.

Measures which he advocated to bring this about include the development of the waterways from the great lakes to the Atlantic, replacement of special control of refrigerator cars, stock yards and elevators by "constructive public service".

Government regulation of the "over swollen units" of the produce business to provide free competition; cooperative marketing; reduction in inflation which he believes will lessen the excessive number of persons engaged in food distribution; standardization of products; exhaustive investigation "into our great national boards of trade with a view to extending their legitimate functions or preventing their abuse" and development of mechanical agriculture equipment.

The Washington award was presented tonight to Mr. Hoover for conspicuous services as federal food administrator and director of a European relief on behalf of several engineering societies.

Mr. Hoover was the first recipient of the award, which was founded in 1916 by John W. Alvord, a member of the western society of engineers, to be presented to the engineer who "best uses his professional skilled and administrative attainments in the promotion of the public welfare."

The government has a special lot of auditors assigned to Chicago to check up income tax returns. It is hinted that the sensational charges surrounding the arrest of a well known corporation attorney may lead to a celebrated fraud case, implicating officials at the national capital. As usual in such cases, there has already been the suggestion of politics and that the charges have not been brought in good faith. We shall see later on—that is if the government is undertaking this investigation in good faith.

THE TROUBLES OF THE ROADS

The railroads are going to be handed back to the owners tomorrow. Altho the Cummins-Esch bill has been signed and is now a law purposing to provide protection which will give the railroad managements a chance, it cannot be denied that very critical years face the properties. Experts figure that the business demand on the roads will be one-third greater during 1920 than it was during 1916, and during the past year there has been no expansion of equipment to meet this increased demand.

Without doubt the roads must immediately make plans for vast expenditures not only for increased equipment but to put property and equipment now held into proper condition. Then there are the ever present demands of the workers to meet. The railroads must have a lot more money or some way must be found for immediately reducing expenditures. Either method adopted will carry a certain amount of grief to the public.

THE SHORT BALLOT

One of the important proposals made to the constitutional convention is for the short ballot which provides for the election of only the governor and lieutenant governor in the state. Under this proposal the auditor would be appointed by the governor and the other state appointments made thru the legislature. Still another shorter ballot plan would leave all appointments in the hands of the governor.

While there are some good arguments in favor of the shorter ballots and its adoption would result in less expense at election time, it would place a mighty lot of authority with either the governor or the legislature.

There is nothing to indicate that legislative appointment of state officials would tend to increase efficiency or make for economy in state business. If the right kind of man is always elected governor his appointments would probably accomplish what is purposed by the short ballot.

FINE SPIRIT SHOWN IN Y. W. C. A. CAMPAIGN.

In many ways the Y. W. C. A., campaign just drawing to a close has been one of the most notable conducted in Morgan county. A number of the special solicitation campaigns "put on" since the war time period have lagged. It is not so in this campaign, due partially to the various weeks of preparation and secondarily to the interest in Y. W. C. A., work which has developed. Before the campaign opened there were very few people in Jacksonville and surrounding territory who had much idea of the programs of work that the Y. W. C. A., organization carries out. The county quota has been oversubscribed about 25 per cent, and this overplus is to be kept in the county for local work. Additional subscriptions will be secured and a sum will be available of sufficient size to carry out a definite work.

Young women who are employed have shown the greatest interest. They have contributed generously to the cause and have considered with enthusiasm the project for a rest room and club room. There has long been the need for just such a place and the Y. W. C. A. campaign has crystalized the sentiment for it and has made its accomplishment a possibility.

There is the promise that the Y. W. C. A. work here in Jacksonville will be of a most beneficial kind.

CHURCH ADVERTISING

That somewhat imponderable commodity which the church has to offer mankind makes its advertising a necessarily subtle undertaking, says the Chicago News. The consuming public in religious matters knows only indefinitely what it wants, and church advertising in consequence suffers in a measure from lack of a definite appeal. Good bread can be made descriptively alluring, but a good church service—at least that element of it which is of worth—escapes such simple manipulations.

Advertising, nevertheless, is probably necessary to the re-elevation of the church from rather general indifference. Left somewhat breathless and behind by the sudden accelerations of other social organizations in the last two decades, the church recognizes the need for secular speed and effectiveness. Certain wide awake church organizations now have taken the initiative with plans for systematic and nation-wide newspaper advertising.

Were this merely a hoist to hold a dying institution from its legitimate grave, church advertising were better not attempted. Nor would it be effective. If those who come through curiosity leave with only curiosity satisfied, advertising, however brilliant, can effect little.

But this, fortunately, is not the case. Church advertising has importance in drawing mankind to church, there to be given contact with those spiritual imponderabilities which cannot be advertised. Religion in its truer sense obviously cannot be advertised, for it is not a public thing; but churchgoing can be advertised and the nature of the next generation's religion may depend upon it.

By the cynically minded it may be suggested to any church's department of publicity that God needs no advertising. The answer is that a busy, care burdened people constantly need to be advertised of God and the spiritual ministrations of His church. On this account a newspaper campaign to arouse interest in church going must be of value.

Rippling Rhymes
By Walt Mason

Scared.

My neighbor, J. Whangdoodle Brown, came up to me and cried. "The Spanish flu has struck the town, and two or three have died! I know I'll have the blamed disease, such ills don't pass me by; I feel the symptoms in my knees, and also in my eye." The sweat was streaming from his brow, his face was drawn and pale; "Why worry," said I; "you are now exceeding strong and hale. Just think of pleasant, cheerful things, forget the microbe gang; just talk of cabbages and kings, and let the flu go hang. Don't cross your bridges, friend of mine, until they're at your feet; and so for you the sun will shine, and life be fair and sweet." He did not take my sane advice, designed to keep him well, and now they've placed him on the ice, and rung the passing bell. Sage council seems a whiskered wheeze, the gift of dreary bores, to those who go to meet disease, and lead it to their doors. And worry over passing ills invites the doc and nurse, invites the druggist with his pills, the sexton and the hearse.

COMMUNITY SINGS TO BE HELD AT VIRGINIA

The Woman's Club of Virginia is instrumental in the establishment of a series of community sings to be held there in future days. Friday night the first of these community songfests was held at the M. E. church in Virginia, with Rev. W. E. Collins, pastor of the Congregational church in this city, directing the singing. The program lasted thru a period of two hours and many were the songs which were sung by the vast audience present. The school children of Virginia have been practicing songs for a number of weeks past, and their contribution added greatly to the pleasure of the event.

FINE SHOWING IN Y. W. C. A. CAMPAIGN

County Quota Is Exceeded By $1,600 — Other Contributions Coming—Definite Work to Be Done Here.

The record made in the Y. W. C. A. campaign thus far has been exceedingly gratifying to Miss Mary Wadsworth, county chairman, and her interested corps of assistants. The Morgan county quota was $1,200 and Miss Wadsworth was able to report last night $1,600 more than the quota with several precincts in the county and part of Jacksonville still to hear from.

It has all along been the intention to raise as much as possible above the quota because this money is to be kept in the county and used for Y. W. C. A., work. It has developed in making the canvass that there is a genuine interest and a demand for Y. W. C. A. work here. It is in recognition of this demand that arrangements have been made for the coming of a secretary who will conduct a survey and make a report indicating just what the demand is here, and what lines of work should be followed out.

It has been found that a number of persons are ready to make further subscriptions, as soon as it has been decided just what kind of work will be carried on. There is a definite demand for club rooms and a rest room, and these projects will no doubt be included in the program adopted. It is intended to coordinate work in some of the county precincts with the unit in Jacksonville.

Saturday was tag day for the Y. W. C. A., cause and Mrs. F. E. Farrell, chairman, was able to report collections to the extent of $190.12. Special interest which has been shown among business young women in the campaign is well outlined in a letter receoved from the Cloverleaf Club in language as follows:

February 28th, 1920.

Dear Miss Wadsworth:

I am very glad indeed to enclose herewith the money given toward the great Y. W. drive, by the members of the Cloverleaf Booster's Club, which consists of the officers and employes of the Cloverleaf Life and Casulty Company.

The girls are all very much interested in this work and are hoping that Jacksonville will be able to establish and maintain club rooms.

You can always count on the Booster's Club to do their share in boosting for Jacksonville, the Cloverleaf and in fact, all that is worth boosting, and we also want to congratulate you upon your splendid work done in organizing the territory and putting the quota "over the top."

Very respectfully,
Cloverleaf Booster's Club,
Louise Strandberg,
1920 President.

All belated reports are expected in during the course of the next few days and the time is not far distant when survey work will begin and then definite steps taken toward organization.

BURGLARS ABROAD SATURDAY NIGHT

Burglars were abroad Saturday night. About 9 o'clock the police received word that thieves had entered the cellar at the residence of Charles DeSilva, 806 North Church street. The burglars broke a glass to gain entrance but were frightened away before they secured anything. There is a large quantity of fruit and vegetables in the cellar but none was missing. No clue to the identity of the thieves was found by Captain Elliott and Patrolman Williams who responded to the call.

A LONG SOUGHT RELIEF FOR WOMEN

Woman's highly nervous and complex organism is very easily affected by the strain of her duties. The continual drain of housework alone, puts a burden upon the system which, if not relieved, soon makes an old woman out of many a young and energetic Mother before her time.

Especially is the back the point of severe strain and the cause of suffering. It is the pressure of strained, moveable bones of the spine on the nerves that causes disturbed functions and leaves women fagged-out.

CHIROPRACTIC WILL BENEFIT

For this reason, women who are run down because of housework, or business duties, find Chiropractic of benefit. The Chiropractor adjusts the spine, corrects spinal defects and removes the pressure from the nerves. Normal nerve function is thus restored and Nature goes about its work unimpeded, to build up the system, strengthen the weak and diseased organs and increase the disease resisting-power of the body. There is nothing embarrassing about Chiropractic. No drugs or surgery are used, yet it insures the best results.

CHIROPRACTIC
THE BETTER WAY TO HEALTH

Many women who are not sick, but who feel run down and tired, take Chiropractic adjustments to keep fit and to maintain their bodily vigor. For Health's sake learn more about Chiropractic (KI-RO-PRAK-TIC). Have a competent chiropractor give you a free analysis of your spine and information, or send your name and the names of your ailing friends, and literature will be furnished.

"THE BIRD OF PARADISE" COMING TO THE GRAND

When one of Oliver Morosco's attractions is announced, the patrons of the theater realize they can expect something worth while. The fact is perhaps the reason for the enthusiasm hereabouts toward the coming of Richard Walton Tully's beautiful Hawaiian drama "The Bird of Paradise" which comes to the Grand theater Wednesday March 3. There are however, certain remarkable aspects to this play which may be touched upon briefly. It has been in active service for eight years, and during that period forty weeks in every year it had cruised among the major and minor cities of these United States, visiting every port of call worth mentioning in the railway guide. And always consistently making money.

It has succeeded because it is one of the most fascinating plays of the past ten years and because its fascination appeals to the romantic imagination that is the common denominator of the American Mass-mind. It has glamour and emotion and all the rich color of romance.

In all its travels, "The Bird of Paradise" comes without wearing any of the symptoms of age and neglect. It is staged and acted as carefully as if it were in its first season. The role of Luana, the Kananaka girl, whose primitive soul the play so thoroughly studies, is now in the hands of Miss Ann Reader, a comely and proficient actress who does as well by it as any of her predecessors. She realizes the physical allure of the character; she registers every mode of the South Sea Mme. Butterfly. She has topical beauty and she can act, and the native Hawaiian singers and players whose sweet plaintive music lends an atmosphere of charm to the play, are a strong feature.

JAPAN PLANS FOR BIG ARMY

Tokio.—The Japanese budget for the next fiscal year amounts to the equivalent of about $637,972,011. An increase equivalent to about $100,000,000 is asked by the arm and navy.

The Minister of Finances has stated that it is highly important to strengthen the national defence in order that peace may be preserved and the mechanism of communication developed. Substantial increases are also called for in the departments of education and communication.

Referring to the naval expenditure it was explained that, in the extraordinary expenditures of the navy, estimates have been included for the completion of the so-called "eight and eight squadron". (Eight dreadnoughts and eight battle cruisers). The proposed naval scheme will cost about $375,975,000 of which $40,000,000 appears in the budget for the coming year.

It is proposed to begin the construction of the following war ships: Four battleships, four battle cruisers, twelve cruisers thirty-seven destroyers, five gunboats, twelve special service ships six mine sweepers and some submarines.

The increased expenditure will be met principally by heavier income tax which will advance over that of last year, by approximately $39,000,000. The tax on Sake, the Japanese national drink which is made from rice, also will be increased.

The shortage in the revenue will be made good by the temporary suspension of the redemption of the domestic national loan.

MUCH INTEREST IN HORSE

London.—A bay horse with a cloven foot is exciting much interest at the World's Fair here. The horse is the offspring of a shire stallion and a Welsh mare and it is suggested that his two toes indicate a reversion to his prehistoric ancestors. Prehistoric horses had three or more toes on each foot. One of the earliest members of the horse family Phenacodus, is said to have had five toes on each foot.

BRITSH SURGEONS ORGANIZE

London.—An organization of surgeons of the United Kingdom has just been formed with the object of establishing a body competent to speak on behalf of British surgery as a whole. It is to be known as the Association of Surgeons of Great Britain and Ireland, and its first president is Sir John Bland-Sutton. One of the functions of the association will be to link up British surgery with American, French and Italian.

MEX GENERAL KILLED

Mexico City.—Luis Mendez, a rebel leader who has operated for some time in the state of Michoacan, was recently killed in a battle with federal troops near Zamora, the head of the victim being displayed in the public square, according to custom, to remove all doubts as to his death

CHEAP DRINKS FOR GERMANS

BERLIN—The national Economic Minister has abolished the order of March 31, 1915, which prohibited the use of alcohol in the manufacture of schnapps and Germany is again to have its cheap and popular beverage. The prohibition of import of liquor remains in force.

QUAKER MAYOR QUITS SOCIETY

Philadelphia.—Mayor J. Hampton Moore, in times past one of Philadelphia's most persistent banqueters, has decided to keep away from feasts during the term of office he has just begun.

As Representative Moore he was much in demand as an after dinner speaker. He was one of the organizers and the chief spirit of the Five O'Clock Club, a famous dining organization. But since he became Mayor Moore the demand for his attendance at banquets has trebled. One evening recently he attended five of these functions, remaining at each one long enough to make a speech. This experience led him to announce that "public business is increasing to such an extent that he is obliged to decline almost all invitations for speeches at night. "They are kindly intended, but there is a limit to physical endurance," the mayor said.

ALL RUSSIAN CONGRESS MARCH 1

Greatest Improvement in Riding Comfort Since the Introduction of Pneumatic Tires

The new Overland is a new kind of car, which women particularly will appreciate. For it combines the riding ease of the heavy long wheel base car with the economy and driving ease of the light weight car. The source of its riding luxury lies in the exclusive New THREE-POINT CANTILEVER SPRINGS. Their resiliency adds a degree of protection to both car and passengers, which virtually removes the fatigue of a long motor journey. Only a ride in this car can give you a real understanding of the full significance of this great improvement. And added to all its riding comfort OVERLAND 4 exhibits in every detail those convenient niceties which properly distinguish it as a car of the highest quality.

VEHICLE TAX LAW TO BE EFFECTIVE

Measure Will Pass City Council Monday Night—Fees Run from $1 to $10.

The city council will probably pass a vehicle license tax at the meeting tomorrow night as the measure was presented at the lats regular session and laid over under the rules. The scale of license fees varies from $1 to $10, according to the class of the vehicle. While most people are not anxious to increase their taxes, there has been a great deal of favorable comment on the vehicle license proposal because it seems fair that the people who use the pavements most should be willing to contribute toward a fund for street pavement maintenance.

The different license fees and the several classifications as indicated in the ordinance are as follows:

Class A—One horse wagon or vehicle, $1.00.
Class B—Two horse wagon or vehicle, $2.00.
Class C—Four horse wagon or vehicle, $3.00.
Class D—Motorcycles, $1.00.
Class E—Motor vehicles of 25 h. p. or less, $3.00.
Class F—Motor vehicles of 25 h. p. to 30 h. p., $4.00.
Class G—Motor vehicles of 30 to 35 h. p., $5.00.
Class H—Motor vehicles of 35 to 40 h. p., $7.00.
Class I—Motor vehicles of 40 to 45 h. p., $8.00.
Class J—Motor vehicles of more than 45 h. p., $10.00.
Class K—Auto delivery, 1 ton or less, $5.00.
Class L—Motor truck, two ton or less, $7.00.
Class M—Motor truck more than two tons, $10.00.
Class N—Electric cars, $4.00.
Class O—Dealers, $6.00.

EARLE WILLIAMS IN 'THE FORTUNE HUNTER'

Earle Williams will be seen at the Rialto theatre Wednesday and Thursday in "The Fortune Hunter" an adaptation of the stage play and popular book of the same title in seven reels.

Nathaniel Dunham, like many modern college products at the age of twenty-six is a business failure. Too proud to further live off his more successful pal he decides to go away. He can no longer live with his pal and keep his self-respect. His pal will not let him go without making one more try. He suggests that he go to a small town, where lives a pretty and very wealthy girl. Obtain a job which will not dirty his hands, purchase a set of dry scientific books, go to church, neither cuss, smoke or chew, or do anything to offend the ultralprudish, make love to the girl and marry her.

He followed instructions, got a position as soda dispenser in the town's biggest drug store, met the girl and was almost convinced that he loved her, yet he did not know whether he did or not. He was not cad enough to marry the girl just for her money. He realized that life would be rather unpleasant were there no love between them. Then, one night he proposed and was accepted and the next day a burglary was discovered and circumstances pointed to him. The girl immediately turned him down, she called him an imposter, a cheat, and a common fortune hunter.

Some interesting developments follow.

"The Fortune Hunter" is one of the most sublime and haunting and beautiful photoplays of the year. There is a lot of good, clean comedy and it gives the star a role that is most likable.

SUNDAY SCHOOL WORKERS CONFER

M. J. HUBBLE'S LONG LIFE IS ENDED

Father of Jacksonville Resident Dies in Springfield, Mo.—Civil War Veteran

Martin J. Hubble died at his home in Springfield, Mo., late Friday night according to a message received by his son, Joel W. Hubble, of this city. The deceased had been an invalid for the past two years as the result of a fractured hip. Thursday night he suffered a paralytic stroke and lapsed into unconsciousness and the end came quickly.

Mr. Hubble was a native of Cass county, Mo., having been born there in August, 1835. His home was on a farm until 1856, when he became a resident of Springfield. In that year, Sept. 23, he was married to Miss Mary Jane Powell, and their home was a happy one thru a long period of years.

The deceased saw several years of service during the war of the rebellion and was mustered out after he had served as captain on the staff of Col. Phelps. Mr. Hubble had long been interested in Masonry and was a Knight Templar. His long years of life were spent in a way to give him an honored memory and his family the inheritance of a good name.

Mrs. Hubble passed away in 1918. He deceased is survived by two sons and four daughters: J. W. Hubble of this city, Earl J. Hubble of Monmouth, Mrs. J. C. Walker, Shreveport, La., Mrs. E. L. Dickerson, Misses Jane and Sarah Hubble of Springfield. J. W. Hubble has gone to Springfield to attend the funeral services.

Deaths

Mrs. William Allan died at her home two miles north of Alexander Saturday morning at 9:30 o'clock. Mrs. Allan has been suffering with influenza and pneumonia for some time. The funeral will be held at the home Mony at ten o'clock. Interment will be in the Ashland cemetery. Rev. Mr. Andrew will conduct the services.

Long.

Mrs. Van W. Sims, received word of the death of her cousin Mrs. Henry Long, which occurred at her home in Glendale, California, Feb. 19th, 1920. Interment was in Forest Lawn cemetery, Glendale, Feb. 23rd, 1920. Mrs. Long's maiden name was Loyyu Entwisile the family lived here a number of years ago. Mrs. Long has many friends here who will hear of her death with sorrow.

Mrs. Long visited here about two and one half years ago.

Murray.

Mrs. Sarah Lois Murray died at the family home in Literberry at 5:50 o'clock Saturday afternoon. Death resulted from an attack of pernicious anemia.

Deceased was the daughter of James and Mary Patton McFillen and was born in Literberry May 18, 1857. She was united in marriage at Literberry November 23, 1876 to William E. Murray who survives.

She leaves the following children: Alvin Ellis Murray, Ft. Dodge, Iowa, James Claude Murray, Racine, Wis., Mrs. Clara Amelia Guy, Literberry and Mrs. Mary Elizabeth Vastine Hastings, Nebr. There also survives one brother, James C. McFillan of Literberry, Mrs. Isabel Cox and Mrs. Heresa Watt of Jacksonville.

Mrs. Murray was a member of the Baptist church and was active in the work of the church. She was also one of the leaders in the club and social life of the community in which she lived. She was devoted to her family yet found time to devote to the aid of those in distress and her going will cause much sorrow in the community.

Funeral arrangements will be announced later.

REUBEN HYATT'S RESIDENCE DAMAGED

Fire Causes Considerable Damage to House on West Morton Avenue—Loss Covered by Insurance.

Fire which started from a defective chimney almost destroyed the residence of Reuben Hyatt, 942 West Morton avenue at 4:15 o'clock Saturday afternoon.

The fire started from the kitchen flue under the roof and had gained considerable headway before being discovered. The entire residence was badly damaged before the flames were extinguished.

Chief Hunt was not able to estimate the loss. However, he said that Mr. Hyatt had the loss fairly well covered with insurance.

FORMER JACKSONVILLE MAN INJURED

PIONEER RESIDENT OF WINCHESTER DIES HERE

H. P. Levine Passes Away at Passavant Hospital—Had Resided in Winchester 60 Years.

H. P. Levis, a resident of Winchester for the past sixty years, died at Passavant hospital at 9:50 o'clock Saturday night of dropsy. He had been in failing health for some time and was brought to the hospital Saturday morning.

Deceased was born at Bridgton, N. J., July 25, 1836 and went to Winchester when a young man. That place had always been his home.

He was twice married. His first wife was Miss Julia Lyman to whom he was married in 1863. She died in 1901. He was again married in 1902 to Mrs. Matilda Patterson, who survives. Three daughters also survive, Mrs. Hattie Coultas, Mrs. Cora Eby, Edwardsville and Mrs. Myrtle Shant, St. Louis.

During the civil war Mr. Levis was in service in the union forces. He was a member of the G. A. R. Mr. Levis served several terms as a deputy sheriff of Scott county and also was a constable for many years. He was a man highly regarded in the community in which his life was spent.

The remains were removed to the undertaking parlors of Williamson and Cody and prepared for burial. The body will be taken to Winchester this morning where funeral services will be held in charge of the Rev. J. H. Coates. The time of the services will be announced later.

LAKE MAUVAISTERE

"That reminds me of a story."

Many years ago a family or a group of people journeyed by raft and wagon from Maryland to Kentucky, thence to Illinois. The party of immigrants entered Jacksonville one day, but still the leading spirits were not content. They must travel further west.

In this party of pioneers was one Miss Tabitha Noe, who became my great-grandmother. She was not only a pioneer, but also a normal young woman who felt the need of a mirror. Accordingly a mirror was obtained in a Jacksonville store and the young woman carrying her new purchase mounted one of the horses for change of travel.

Proceeding with their journey they came to Mauvaisterre Creek, which they were about to ford when they encountered a few Indians. Tabitha Noe becoming nervous on seeing the Red Men together with crossing a stream managed to break her new mirror. Such a long trip to get a looking-glass and then it broke so soon! Later, much later, this became a humorous story to be told to grand children.

PowerFarming "Seguro Miguel!" CASE PowerFarming "Seguro Miguel!"

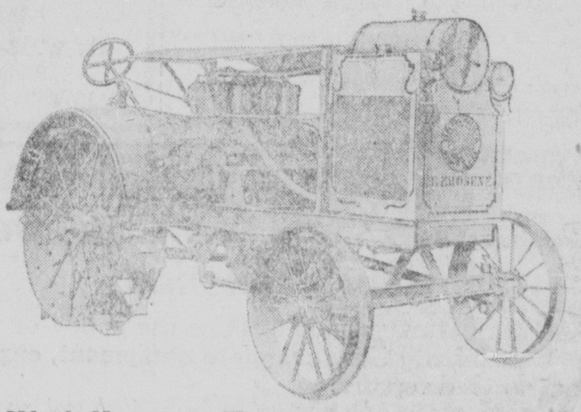

The days of horse and hand power farming have gone into the discard—verily, the old order passeth.

—This is just as true for the man who farms an "Eighty" as for the one who farms "Eight Hundred." Speed and a lessening of expense, with a greater return, is the order of the day. The up-to-date and wise farmer uses power farm machinery wherever possible.

—The J. I. Case Company, pioneers in these lines, build superior tractors, threshers, pulverizers, discs, plows, etc., and we shall have a complete set to show you in a few days.

MRS. CHARLES SMITHSON DIES AT WINCHESTER

Sudden Death of Mrs. Charles Smithson Occurred Saturday—Remains of Thomas Williams Laid to Rest—Other News From Winchester.

Winchester, Feb. 28—The sudden death of Mrs. Charles Smithson occurred at 1 o'clock Saturday at the family home northwest of Winchester. The deceased had been in poor health for some time but her death was not expected. About noon the daughter of the deceased went to her room and found her sleeping, but upon returning later she discovered that her mother was dead. On account of the suddenness of the death, Coroner Thomas Webster of this city empaneled a jury to inquire into the cause of death.

The maiden name of the deceased was Laura F. Campbell and she was a daughter of the late Mr. and Mrs. William Campbell. She leaves two daughters, Mrs. Keith Peak, living in the west part of the county, and Miss Leila Smithson at home. There are four sons, Clyde and Ivan Smithson, living in Scott county; Orville of Ohio and Everett Smithson of North Dakota. The deceased also leaves the following sisters: Mrs. William Taylor, Winchester; Miss Mary Campbell, Waverly; Mrs. Sallie Dawson, Springfield, and another sister living in the southern part of the state.

No arrangements for the funeral have yet been announced.

The remains of the late Thos. Williams arrived Friday afternoon from Pekin, accompanied by his wife and Mr. and Mrs. William S. Williams; Mr. and Mrs. James C. Williams, J. C. Howard and Mr. and Mrs. Arthur Brown of Beardstown. The remains were taken to the home of the daughter of the deceased, Mrs. Harry Kirkman. The funeral will be held at 2:30 o'clock Sunday afternoon from the Methodist church, in charge of Rev. C. W. Caseley.

The deceased was a resident of Winchester a number of years ago and is well remembered by many local people. For the past several years he has made his home in Pekin.

Luther Carter, who has been a baker at the George Smith establishment, has taken a similar position in Roodhouse and he and his family expect to move there soon.

The Winchester basketball team went to Griggsville Friday and were beaten by a score of 31 to 16.

ABOUT THE LAKE

Jacksonville, Ill., Feb. 28, 1920.
Editor Journal:

I wish to thank the committee on their fine decision in naming the new lake, Mauvaisterre Lake, also Victory Drive, the name Mauvaisterre is a beautiful one, an indian name, meaning Manvois-bad-teerre, earth on bad lands.

The Mauvaisterre school-house located on the then Irvin Dunlap farm was a historic place. January 28, 1875, I remember well, the therometer registered on that day 40 degress below zero. I attended school that day walking 3 miles across the prairie no one attended school that day, but the teacher, the late Charles W. Levings and myself, he asked me how cold I thought it was, I told him it was sure cold, he said his thermometer went down to 40 below, that there would be no school that day. We stayed there by a hot stove, until late in the day, when it moderated some.

It was quite a distance that my brother and I used to tramp it on foot and sometimes on horse back a six mile hike 5 days in seven at one time we were returning from school. Marshall was riding a green colt. I was astride a fine pony, "Billy Button," a fine swimmer, there came an awful freshet that spring, it raised the Mauvaisterre Creek out of its banks was up to the railing on the shuff bridge.

But we crossed it alright, then we came to a stream about 2 miles distant known as the branch. That paralels the Mauvaisterre, here we met up with a difficult job, this stream had swollen up and at this point was fully an eighth of a mile wide, we decided to cross it, we plunged our horses into the roaring river, and landed on the opposite side in safety, altho we came out about 100 yards below where we went in.

Judge Herbert Whitlock taught a term or two a Mauvaisterre, he accompanied me home from school on evening, and remained over night, as I was a small boy, he lifted me over the fences. Dr. Gailey was another teacher, James Shuff and others. My brothers and I attended Mauvaisterre school, 10 consecutive terms to one teacher Cev. Levings, we generally had a spelling bee, on Friday afternoons chose sides, about 25 on each side.

We used the Sander's spelling book and knew it by heart. Being unable to spell us down our teacher gave out the word, Mauvaisterre. We took a shot at it, the whole bunch missed it, then we were thru."

Yours Truly,
Irvink W. Cully.

Now for a new belt—

Did you ever see anything to beat the way the average male citizen hangs on to his old belt? Wears it till it's frayed and dingy—unfit even for a job in the old woodshed.

"Oh, I forget," is the usual explanation.

Here's a mental stimulus—a reminder. This is belt-buying time—we've just received a new stock of Braxtons.

Of course you know the Braxton—it's the fashionable belt for men. And it comes in seven leathers—you also get your choice of buckles.

You'll like the looks of this belt — and more, you'll like the smoother, smarter hang it will give your trousers, and the comfortable way it will fit to your waist.

This is belt buying time —come in today for one of our new Braxtons.

You will enjoy wearing this belt as much as I enjoy selling it to you.

Any price is too much to pay for a poor diamond. Any diamond is a good investment if it is a good diamond.

FOR AN INVESTMENT

Only diamonds of great brilliancy, fine color and without unsightly or dangerous defects should be considered.

Diamonds of poor brilliancy and color are plentiful and cheap and grow more so evey year. The supply of light brown and dull white diamonds is far in excess of thedemand and they simply have no future as an investment.

BUSINESS PLANKS IN LOWDEN PLATFORM

Principles Illinois Executive Enunciates Will Certainly Find Farm.

Washington, Feb. 27.—Governor Frank O. Lowden of Illinois an asoirant for the Republican nomination for President, has given to the public a brief synopsis of his views upon pending public issues. This platform, together with his record in Congress and in the Gubernatorial office, wil constitute the chief basis of his campaign. The statement of principles is as follows:

"The immediate return to an efficient, economical and business administration of public affairs.

"Reduction of taxes.

"The abolition of the numerous agencies for war purposes which have been continued at an enormous expense in time of peace.

"A protective tariff measured by the difference in the cost of production at home and abroad.

"A rigid insistence upon the principle of government by the people and not by any class.

"The ratification of the peace treaty with reservations substantially as proposed by the foreign relations committee of the Senate.

"Encouragement of agriculture and recognition of the principle that it is and must remain our most important industry.

"The exclusion or deportation of aliens who place the red flag above our own.

"A stalwart, uncompromising Americanism which put this country's interests first.

"International friendships, not partnerships.

"A fearless enforcement of law and order.

"A speedy return to normal conditions.

"Justice to all."

DR. THOMAS W. SMITH TO ADDRESS FORUM

The speaker at the Community Forum in the Congregational church this evening will be unique in one respect for Dr. Thomas W. Smith was graduated at Illinois College in '87 and is very well known in the city of Jacksonville. Dr. Smith made a reputation for himself in the East as a progressive pastor and preacher, his last pastorate being the Presbyterian church at East Orange, New Jersey. The Forum speaker has a timely message, his subject being "Our Unfinished Task". He will speak on the biggest movement that has ever been conceived in the minds of Protestant leaders—The Inter-Church World Movement, next to the business of running the United States Government this is the biggest business in this country.

As Dr. Smith is considered a keen thinker and a speaker of exceptional ability it is expected that a very large number of Jacksonville people will be anxious to hear his address this evening.

NUMEROUS PETITIONS FOR COMMITTEEMEN

Each Party Will Have Organization of Forty One Members—Men Are Selected at Primary.

Under the new law members of county central committees are elected. The final day for filing petitions is Thursday, March 4, and already a considerable number have been placed on record with County Clerk G. L. Riggs.

There are forty one precincts in Morgan county now and this means that there will be at least eighty two petitions filed and because of contests in some precincts the number will be even larger.

Thus far only seven Democrats have filed, but no doubt in the course of the next few days the party organization will see to it that the remaining petitions necessary in filling out the committee are filed.

TO PLANT ELMS.

Now that the war work is over, we must not forget the part the American Legion played in helping win victory. It is the purpose of the Service Star Legion (formerly the War Mothers) to plant a tree for every soldier whose parents are dead or unable to do so. This will make possible our beautiful avenue of elms around Victory drive at Mauvaisterre lake.

Matrimonial

Morton-Abbott.

Gilbert W. Morton and Dr. E. Louise Abbott, both of this city were united in marriage at Joliet last Saturday. The groom is a son of the late F. M. Morton and well known in this city. His bride is senior physician at Jacksonville state hospital. They will both have the best wishes of a large circle of friends.

Platt-Vieira.

Raymond E. Platt and Miss Marguerite Vieira both of this city were united in marriage Saturday evening by Dr. Walter E. Spoonts at his residence.

The groom is a native of Jacksonville. He learned telegraphy in the local office with J. L. Pine. Later he was employed by the Associated Press and at the present time holds a desirable position with the E. B. Conover grain company.

In the late war he was in service and was in the signal corps. He is a young man of ability and highly regarded by many friends.

His bride is the daughter of Mr. and Mrs. Frank Vieira of Freedman street. She was educated in the public schools and recently has been employed at the Ward book bindery. She is a member of Northminster church and a young woman whose charm of manner has won for her many friends.

They left immediately after the ceremony for a brief visit in Springfield. They will make their home in this city and will have the hearty good wishes of a large number of friends for a long and happy married life.

Barnes-Kellogg.

Harry Barnes of Keokuk, Iowa, and Miss Flossie Kellogg of this city were united in marriage at 9:30 o'clock Saturday morning at the home of the bride's parents, Mr. and Mrs. J. F. Kellogg, 835 East State street.

The ceremony was said by the Rev. D. V. Goudy, pastor of Centenary church. The vows were heard by a small company of relatives and intimate friends. Following the ceremony a wedding brekfast was served. Owing to a recent death in the family more elaborate preparations planned for the wedding were abandoned and the wedding was a quiet home affair.

The bride is the daughter of Mr. and Mrs. J. F. Kellogg and has always resided here. She graduated from the high school and later attended Illinois Woman's college. She is a member of Centenary church and has always been active in the various organizations, for several years past being a teacher in the Sunday school. She is a young woman possessed of many charming traits of character which have endeared her to a large circle of friends.

The groom formerly resided here and was employed by Swift & Company. He was in service during the recent world war and acquitted himself with credit. Upon receiving his honorable discharge he again entered the employ of Swift & Company and recently was promoted to a better position at Keokuk.

Mr. and Mrs. Barnes left Saturday morning for Kansas City and other points for a brief wedding trip. They will then be at home in Keokuk.

MEDALS FOR COMPANY B MEN

At the regular drill of Co. B at Armory hall tomorrow night emblems earned on the rifle range at Camp Lincoln a few months ago will be awarded by Captain James. The captain himself and Private Kenneth Beerup of Alexander will receive gold sharpshooters medals. Other awards will be of the first and second class. Badges are also to be distributed for attendance records made. Capt. James has a plan well under way for the location of a rifle range near this city and it will no doubt promote great interest among the men of the company.

C. E. box social at Central Christian church Tuesday, March 2, at 7 o'clock.

Mr. and Mrs. J. H. Crim, West College street, have returned from Springfield where they attended the funeral of Mr. Crim's neice Mrs. Jesse Griffen.

M'KENDREE WON IN OVER TIME GAME

Nosed Illinois Out in Extra Period by Score of 28 to 25—Cully Ties Score Just Before Final Gun—Game Was Hard Fought.

McKendree defeated Illinois College at David Prince gymnasium Saturday night by a score of 28 to 25 in an overtime period.

The game, like the one of the previous evening, was fast and hard fought and was anybody's game from gun to gun. When Cully tossed a basket about three seconds before the final gun, which tied the score, the crowd went wild.

It was a heart breaking game to lose and Illinois should have won it with any kind of luck. However, the goddess of fortune or luck, or whatever you choose to call it, perched upon McKendree's banner in the five minute overtime period.

In that period, Wagener who been trying long shots with but little success in both games finally got his horseshoe to working and tossed two field baskets. He was always good at free throws in both games.

The game started off with a rush and the speed was maintained thruout the entire playing period. McKendree's captain objected to Hufford officiating in Saturday night's games and Coach Harmon secured Foltz, coach at Pittsfield. Foltz let the men go and the game was even rougher than on the previous evening.

When the first half ended, the score was 14 to 9 in favor of Illinois. Soon after the start of the second half, McKendree took the lead and held it until just before the final gun when Cully tossed the basket that sent the game into the overtime period.

Reiss who was handling the gun got so excited that he held a celebration all by himself, shooting away all his cartridges. The play was held to enable him to get more ammunition and it is probable that the rest enabled McKendree to hold her "pep" for the final spurt.

Andrew, Antrobus, Mellon, Barnes, Cully and Mutch all figured in the scoring for Illinois. Wagener almost won single-handed for his team. He played a wonderful game, especially in the second half when his two long shots and a free throw gave McKendree victory. Mutch and Davis played splendidly at guard.

JUSTICE COURTS

Monroe Abell and Edward McCollister were arraigned in Justice Opperman's court at 9 o'clock Saturday morning and placed under bond in the sum of $500 each to await the action of the grand jury. The charge against them is assault with deadly weapon.

The men had no attorney. Carl E. Robinson, states attorney appeared for the people. Taylor Reed, the man alleged to have been assaulted was the only witness examined. After hearing his testimony the court took the action indicated.

Neither man was able to furnish the required bond and both were committed to jail.

Being Prepared—No. 1

INSTITUTIONS, like individuals—in order to give the best Service—to produce the best Results—must be Prepared—must be equipped for it.

NOTHING ELSE in the final analysis counts for very much. It is often questioned—"Why is it that they can produce such excellent Results?"

"WHY IS IT that they lose so few operative Patients at the NEW HOME SANITARIUM?"

FROM THE RECORDS you find—out of 2770 cases operated on and treated at this Institution only thirty-one deaths—about one out of a hundred—BEING PREPARED.

THESE ARE QUESTIONS often asked and discussed. The answer is plainly seen by any one who visits the Institution, and you are always welcome here.

FIRST—It has a staff of eight competent, well-trained nurses who are especially trained in surgical and obstetrical nursing.

SECOND—The physical equipment consisting of furnishings, instruments, electrical sterilizers and the latest of diagnostical anparatus from McIntosh (Chicago) X-Ray to Tycos Clinical Thermometers.

IN ADDITION—clinical and surgical—technique laboratories where examination of blood, sputum, and body excreta, and so on, are made to assist in correct diagnosing of cases.

WITHOUT these aids, no physician or surgeon can do his best or justice to his patients.

WE OFTEN SERVE the sick by diagnosing the cases only and they get treatment where they choose.

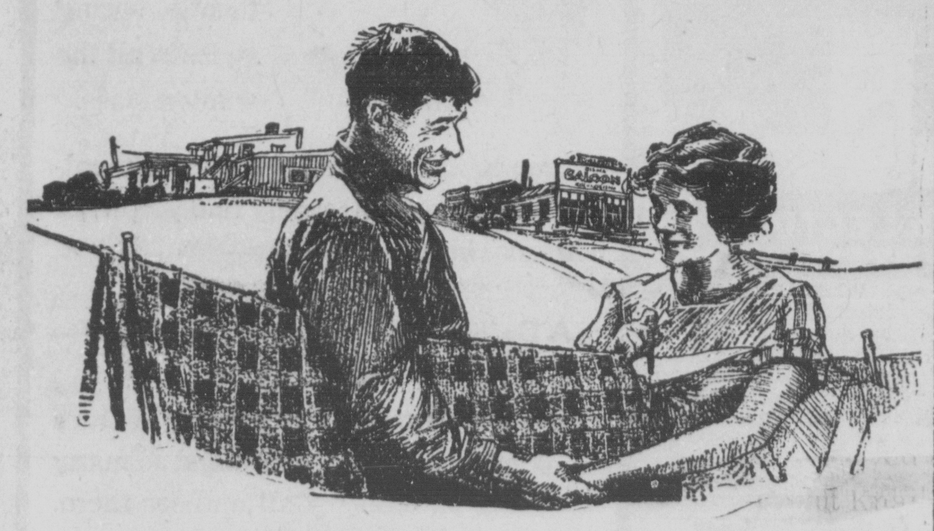

THE MAIN THING is to know just what the CAUSE is—the treatment is easy.

NOW YOU HAVE a general idea that you may be able to answer these important questions hereafter.

ENGLISH STUDY CONDITIONS HERE

Investigation of Econmic Affairs Furnish Answer to Free Trade Arguments.

Washington, Feb. 27.—The Republican Publicity Association, thru its President, Hon. Jonathan Bourne, Jr., today gave out the following statement from its Washington headquarters:

"It has been the custom of many Americans to go to other countries to study conditions and institutions with a view to improving our own. Sometimes it has seemed as tho America has little confidence in her own institutions or the ability of her own people to perfect those institutions without copying more ancient nations. Our writers of books and magazine articles on public questions have been prone to cite, as illustrations of the most advanced development, conditions existing in European countries.

"Very seldom have European countries sent their representatives to the United States to make a special study of conditions here with a view to adapting knowledge this acquired to the improvement of industrial or political conditions at home. Because of the rarity of such investigations, particular interest should attach to the results of a study made in 1911 by the Board of Trade of London on cost of living and rates of wages in the United States.

Comparative Figures.

"The inquiry and report covered conditions existing just prior to 1911, at a period in the United States history when the protective tariff system had been in force for many years. Summing up the question of wages and cost of living, Mr. G. R. Askwith, of the Labor Department of the Board of Trade, made a comparison of wages and cost of living and said that under the conditions existing a 'workman's wages would be higher in the United States by 130 per cent, with slightly shorter hours, while on the other hand, his expenditure on food and rent would be higher by about 52 per cent, as compared with the wages and cost of living of the English workman.'

"This would seem to be a complete answer to the argument made by free traders, that whatever advantage a workman gains thru higher wages as a result of a protective tariff, he loses thru increased cost of living due to the higher prices he must pay. Since it was true as ascertained by the British Board of Trade in 1911 that American wages were 130 per cent higher, while the cost of living was only 52 per cent higher than in Great Britain, then there is no foundation whatever for an argument that the disadvantages counterbalance the advantage of the protective tariff to the wage earner.

"The Committee of the British Board of Trade which conducted the investigation, found also that the American workman lives in better house, wears better shoes, eats better food has more leisure, enjoys more luxuries and has more money deposited in saving banks, than has his British cousin.

"If this investigation had been conducted by Americans for the express purpose of showing the superiority of conditions in America, the showing could scarcely have been more complimentary to the American system than it is. Certainly there can be no suspicion that the British investigators came here with the intention of ascertaining and making a report particularly favorable to the United States. It is an old saying that altho figures do not lie, liars often figure. One prejudiced in favor of the American protectivt tariff might be suspected of selecting his statistics or drawing his conclusions under the influence of prejudice. This suspicion does not lie against the facts and conclusions arrived at by a Committee of the British Board of Trade."

He is a member of the Christian church and is a young man of exemplary habits and special business ability.

Mr. and Mrs. Henderson will make their home on a farm belonging to the bride's father in Woodford county, and will begin housekeeping there with the best wishes of a large group of friends.

BACK HURT ALL THE TIME

Mrs. Hill Says Lydia E. Pinkham's Vegetable Compound Removed The Cause.

Knoxville, Tenn.—"My back hurt me all the time, I was all run down, could not eat and my head bothered me, all caused by female trouble. I was three years with these troubles and doctors did me no good. Your medicine helped my sister so she advised me to take it. I took Lydia E. Pinkham's Vegetable Compound and the Liver Pills and used Lydia E. Pinkham's Sanative Wash and now I am well, can eat heartily and work. I give you my thanks for your great medicines. You may publish my letter and I will tell everyone what your medicines did for me."—Mrs. PEARL HILL, 418 Jacksboro St., Knoxville, Tennessee.

Hundreds of such letters expressing gratitude for the good Lydia E. Pinkham's Vegetable Compound has accomplished are constantly being received, proving the reliability of this grand old remedy.

If you are ill do not drag along and continue to suffer day in and day out but at once take Lydia E. Pinkham's Vegetable Compound, a woman's remedy for woman's ills.

Wants Public to Know About Natski Blood Purifier

This man was so well pleased with the results he obtained that he felt it his duty to inform the public regarding the wonderful results of Natski:

Assumption, Ill., June 28, 1919.

Ty My Friends and to Whom it May Concern:

I believe it my duty to inform the public that I was afflicted for about four years with rheumatism and a trouble in my left side. I trie da number of remedies recommended for my troubles, but no good could I get until I took Dr. Johnson's advice and went to taking NATSKI, and I am glad to my pain left me all over, side and all. Try say that two bottles cured me sound and it, my friends, and be convinced.

Only Tested Materials Go Into

Permalife

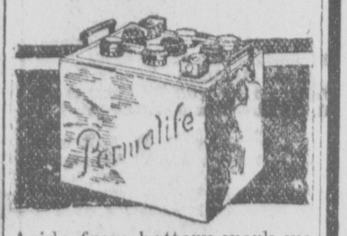

BATTERIES

All materials that go into Permalife batteries—acids, and rubber, metal or wood parts—are subjected to a rigid analytical test before being used.

This insures you against a short-lived battery—one in which the materials are not up to specifications.

And it's one of the things that enables us to guarantee Permalife for 20 months — the longest, real battery guarantee in America.

The Most Beautiful Car in America

A New Development in Light Sixes

Before we began experimental work on our new six-cylinder motor three years ago, we made a very thorough investigation of the light six field.

We found out just what qualities car owners desired in the power plants of their motor cars and then we designed an engine to meet these requirements.

The wisdom of our method is attested by the unanimous approval given our five-passenger "Glenbrook" model. With its first appearance, it immediately won the enthusiastic support of motorists.

And, by its dependable and economical performance, it has so clearly demonstrated its high character as an investment value that our production schedule is already proving unequal to the demand.

The "Glenbrook" is a truly remarkable development in five-passenger cars. Won't you arrange for a demonstration while our dealer is in position to meet your requirements as to delivery?

MRS. ORTEN BURIED AT WHITE HALL

Funeral Services Conducted by Rev. P. G. Hale—Deceased an Old Resident.

White Hall, Feb. 26.—Funeral services over the remains of Mrs. Margaret Orten, who died Tuesday night following an illness of several months, were held at the home on Carson street at 2 o'clock today, the discourse being delivered by Rev. P. G. Hale of Godfrey. Mrs. Orten was a pioneer of White Hall, spending practicaly her entire life here. Her age would have been 82 years next June. She was one of a family of six children, her father being the late Alexander Lakin, well remembered among the older people as a member of a representative group of White Hall pioneers.

Mrs. Orten had a brother, W. T. Lakin, who will be remembered as a newspaper writer and promoter, and who died about five years ago. Her husband,, James Orten, died fifty-six years ago, and the two surviving children, Emma and Frank, are the only children by this union. Emma has had the care of her mother for many years, she being a printer and for a number of years has been connected with the White Hall Register. There are six grand children, one of whom, Verna Orten, is at the old home. Frank is at present located at Grand Pass, this county, he being engaged in the ditching contract business. There are two great grandchildren. The burial was in the White Hall cemetery.

Barbers Raise Prices

Two White Hall barber shops anyway have posted notice of a raise in the price of shaves to 20c and hair cuts to 40c. This fact brings the oldest White Hall business man, Charles Richert, into further prominence. Richert has been engaged in the barber business on Main street for over forty years, and the past year has netted him his most satisfactory business showing. Mr. Richert did this without raising the price of his services one cent, charging 10c for shaves and 25c for a hair cut.

Power and Light With the Quiet Knight

'Willys Light' Demonstration

Now Going On
See Our Window

Come in and see this wonderful machine doing actual work claimed for it.

A Complete Electric Light and Power Plant

There isn't a home worthy the name, the world over, that wouldn't appreciate the benefits, comforts and economies of electricity. A few years ago only those who lived in cities could enjoy its numberless advantages. Then came the first crude little plants for individual use—not expensive, but far from efficient and reliable. Steadily improved and perfected, they now represent the most useful and indispensable invention of the last decade.

Willys Light has achieved the highest development, the most advanced ideas in an electric light and power plant for the farm and home. Its cost is less than half that of the medium priced motor car. Its efficiency and dependability will satisfy the most exacting. It saves vastly more in time and labor than it costs to operate it.

City Comforts for Country Homes

The Name "Willys" an Ample Guarantee

Willys Light is a product of the Electric Auto-Lite Corporation, one of the allied industries of the great Willys organization—manufacturers of automobiles, trucks, tractors, aeroplanes, engines, batteries and kindred products. Willys-Overland cars, Knight engines and Auto-Lite starting and lighting systems are world-famous. Willys Light will have as great a demand.

Comfort, Convenience, Safety and Economy

A Steady, Brilliant LIGHT—Instantly Available Day or Night. Eliminates the Heat, Smoke and Daily Cleaning of the Dangerous, Ill Smelling Kerosene Lamp and Lantern. POWER for Pumping Water; for the Washing Machine, Cream Separator, Churn, Vacuum Cleaner, Electric Fan, Grindstone, Feed Cutter—or any light powered motor. ILLINOIS WOMAN'S COLLEGE NOTES

On Saturday evening the annual Washington's Birthday party was held at Illinois Woman's College. Colonial costumes were worn to dinner by students and faculty. The dining room was beautifully decorated, the use of red, white and blue balloons being one of the chief features. A program which consisted of songs and dances of "All Nations" was given in the gymnasium, followed by a grand march and cotillion.

Miss Zerita Schwartz led the Y. W. C. A. service Sunday afternoon—a service in preparation for the coming Inter-Church World Conference on Life Work to be held at the college March 2nd and 3rd. There will be present at this Conference Ario A. Brown of the Board of Sunday Schools; Mrs. F. I. Johnston, representing the Life-Service Department of the Methodist Episcopal church; Mary J. Herrick repersenting the Board of Home Missions; Welthy B. Hansinger representing the Woman's Foreign Missionary Society, and Victor W. Thrall of the Centenary Conservation Committee.

The members of the Junior Class served an "a la carte" breakfast Monday morning the proceeds of which are to go toward the publication of the College Annual. Over twenty dollars was realized for this purpose.

The gym is the scene of much activity nowadays. Preparations are being made for a gymnasium exhibition and the various classes are organizing Basket Ball teams with a view to determining the championship at a final game which will be played at the exhibition.

Misses Helen Blaisdall, Constance Hasenstab, Mona Ramsey, Marion Humphreys and Harriet Keys left Friday for Peoria to attend the Illinois Student Volunteer Conference to be held there February 27th.

Lambda Alpha Mu, Theta Sigma and Phi Nu Literary Societies initiated their pledge members this week.

Miss Catherine Madden, who is teaching Mathematics in the Pekin High School is the guest of her sister, Miss Florence, over the week end.

Tuesday evening Mrs. Harker entertained the students and faculty at a tea in the Society Halls where the pictures of the Art Exhibit were hung. Voluntary contributions amounting to the sum of thirty two dollars were received toward the purchase of Miss Knopf's picture "The Cypress Trees."

The Junior-Sophomore Essay Contest will take place Monday evening, March 1st in Music Hall. The contestants are the Misses Sue Wade, Vera Werdner and Cora Cherry of the Junior class, and Hezel Dell, Elizabeth Bacon and Ada Clotfelter of the Sophomore class.

Miss Veriel Black, who has charge of the swimming classes, is expected back in the city Monday to resume her work. Miss Black's mother has been very ill, which necessitated the trip to her home.

Miss Louise Miller, the new voice teacher at the college, will give a recital on the evening of March 15th.

Miss Gladys Chase sang a solo at the Baptist church Sunday morning and Miss Bessie Thayer sang in the evening. Miss Helen Ayres sang a solo at Centenary church Sunday evening.

Miss Suzanna Rinehart played a violin solo at the Morgan County Teacher's Association Saturday afternoon.

Miss Moore is to give a children's violin recital and exhibition of class work on Saturday afternoon March 6th at 4 p. m. The puplic is cordially invited.

Miss Lazelle has been engaged to sing in the "Messiah" in Yankton, South Dakota, on March 10th and to give a recital in Springfield, South Dakota on March 11th.

The following program was given Thursday afternoon by students:

Contest in Essays.

Much interest is being manifested in the Wesley Mathers Contest in original essays to be held Monday night March first, in Music Hall. Representatives of the Junior and Sophomore classes will anticipate, each class being represented by students. The representatives were selected after a try-out held ten days ago.

The Contest arouses more class spirit and enthusiasm han any other college event of the year. Music Hall will be the scene of much interest and excitement on Monday evening. All friends of the college and the students, and any one interested in the work of the Expression Department are cordially invited to be present. Admission is free.

Prizes will be awarded $17 for the first and $8 for the second. These contests are made possible by the establishment of a fund known as the Wesley Mathers Memorial Fund by Mr. and Mrs F. H. Rowe in honor of Mrs. Rowe's father, Wesley Mathers, who was one of the founders of the college.

The following is the program **Junior-Sophomore Essay Contest.**

ILLINOIS COLLEGE NOTES

The College Y. M. C. A. will hold its annual election of officers next Tuesday evening, March 2.

Professor Erwin Escher led the Y. M. C. A. meeting last Tuesday evening giving a very interesting talk on "Religion and Rationalism". He discussed the general attitude toward religion found in various parts of Europe, comparing it with conditions found in South America.

Beginning March the first there will be a decided change in the plan of conducting the Chapel exercises. The services will be held under the direct charge of the faculty on Mondays and Fridays; under the direction of the Y. M. C. A. and Y. W. C. A. on Tuesdays; and on Wednesdays the students will meet in classes—the exercises being conducted by the faculty advisor of each class. The Student Association meeting will be held on Thursday. Attendance is required of the students at all except the Thursday meeting. All meetings are held from 9:50 to 10:00.

The Reverend Thomas W. Smith D. D. of East Orange, N. J., will preach at the Pisgah Presbyterian church Sunday morning. Dr. Smith was graduated with the class of '87.

The Phi Omega Society of the Conservatory of Music gave a dance to the students of the college Friday evening.

The Springfield Alumni association are expecting to hold their annual banquet at an early date.

Among the new registrations for the second semester in the department of Expression is Miss Velma Mathews of Beardstown.

USL STORAGE BATTERY SERVICE

Golden Rule Service

Service is the one thing that we sell— service in line with the Golden Rule

WE distribute this same Service to *all* car owners and to all makes of batteries without discrimination.

When you pay money for a new USL you are buying Golden Rule Service, of which the battery is but an essential part. It's just the same as paying your employees, your lawyer, your doctor, your dentist—for Service.

Service is the most important thing in the world today. To all car owners, we aim to be the "greatest Servant of them all."—Our Golden Rule Service, we think, makes us so. But we invite your careful co-operation in caring for your battery so as to assure you long battery-life.

Often when a man thinks his battery is "done for" and he is ready to buy a new USL, we show how we can save him money by repairing his old battery and giving an adjustment guarantee for eight months.

We sell only USL Batteries with the durable machine-pasted plates. The factory ships them to us "Dry-Charged." This avoids all before-sale deterioration so that you really get a perfect, full-life battery.

We are a USL Golden Rule Service Station—not a battery-store

ESSEX

40,000 To Be Built in 1920

Despite $2,250,000 Spent in Enlarging Plant, the Essex Manufacturers Cannot Keen Up With Demand for Its Superior Car — We Strongly Recommend Your Investigation of the Merits of the Essex, and the Placing of Your Order Now.

Interesting Facts

The demand for automobiles will be greater this Spring than ever before in the history of the industry and the Summer of 1920 will again find the market swept bare of cars forcing owners to wait weeks and sometimes even months for delivery.

The most optimistic forecasts place the production in 1920 at only 2,000,000 cars. Figuring conservatively, there are 6,500,000 cars in use today in the United States As the average life of a car is five years, the scrappage each year totals more than 1,000,000 cars. So production will be less than double the actual scrappage.

Take the case of the Essex, for instance. In 1919 there were 20,000 Essex built and sold, but even this number proved insufficient to supply the demand. In 1920 the production will be 40,000 cars, the factory having spent more than $2,250,000 during the past year in enlarging its facilities. But still the number we have been able to obtain is not sufficient to satisfy the need of our customers and will be far short of our requirements when the rush to obtain new cars begins in the early spring.

Of course, the Essex is an exceptional car. By combining all the beauty, luxury and performance of the most costly cars with a moderate first price and the utmost economy of operation, it has filled a transportation need. So the demand for it has been usually heavy but there will be the same shortage of all good cars next summer as there was last year.

Therefore the only way to avoid disappointment in obtaining a car for early delivery is to order at once.

STOCKS GAIN IN SATURDAY'S SESSION

(By The Associated Press)

NEW YORK, Feb. 28—Trading in stocks today was perfunctory and uncertain of tone except for further buying of secondary rails at extreme gains of 1 to 2 points. Recurrent heaviness was shown by steels and equipments, while motors and oils offered only passive resistance to pressure in the later dealings.

Specialties comprising the textile, leather, tobacco and food groups were variably lower. Their moderate reaction reflected the views of trade authorities that demand for these commodities is lessening.

Rock Island dominated the low-priced rails, but issues of southern divisions were fairly active together with bituminous coalers and eastern trunk lines, notably New Haven.

In most instances gains were shaded by profit-taking at the irregular close. Sales amounted to 425,000 shares. For the first time since the early part of the year, the celaring house statement showed an actual increase of loans and discounts, that item expanding by sligatly more than $11,000,000.

Reserves of members in the New York federal reserve bank made a material increase of $28,563,000 and total excess reserves were lifted from last week's slender margin to a total of $35,192,660, the most favorable exhibit since the first week of January.

Dealings in bonds were light with the tendency again downward, especially in liberty bonds and victory notes.

Total sales (par value) were $8,250,0000.

CORN PRICES RALLY FROM BAD OPENING

(By The Associated Press)

CHICAGO, Feb. 28.—Anticipation of possible improvement in traffic conditions after railways are returned to private ownership gave considerable advantage today to bears in the corn prices. Prices rallied at the last however and the close was unsettled 1½c net lower to 1⅜c advance with May $1.36¾ to $1.36⅞ and July $1.31 to $1.31⅛. Oats gained ¼ to ¾@⅞c. In provisions the outcome ranged from 10c decline to a rise of 12c.

Gossip was current among corn traders that somewhat more liberal receipts might well be looked for under changed methods on the railroad hopes.

Hopes of an increase were stimulated by forecasts that temperatures next week would average below normal, and that probably therefore country roads would remain hard instead of being rendered difficult by spring mud. The selling side of the market was also favored because of talk that the government report on farm reserves of corn would show a good sized surplus. Closing up of February contracts however and the week-end adjournment of trades brought about a spirited rally in the final hour of the session.

Oats paralleled the action of corn. Eastern demand was fairly good.

Provisions were ruled largely by sentiment in regard to grain.

Hog values received but little notice.

BRILLIANT MINISTER VICTIM OF INFLUENZA

Rev. Dudley B. Ashford, Noted Preacher and Lecturer, Well Known on Three Continents, Was Ordered to Give Up Work.

Rev. Dudley B. Ashford, Noted Preacher, Lecturer and Missionary.

Reverend Dudley B. Ashford is an extraordinary man. Although still on the sunny side of forty, he has crowded more service to humanity into a few years than most men accomplish in a life-time.

Soon after his graduation from Harley College, London, England, he was ordained minister at the famous New Court Congregational church, London. A short time thereafter he was selected to present the cause of Congo Reform and African Missions before the people of Norway, and toured that land with such success that he was greeted by enormous crowds at every meeting.

In 1908 under the auspices of the Colonial Missionary Society, he was sent to New Zealand and for three years labored as a missionary among the Maoris, where his experiences were novel and thrilling.

In 1916 he returned to England and served for three years at Wood street Congregational church, Cardiff, South Wales, the biggest Congregational church in the British Empire. It was while here that he fell one of the early victims of the great 1918 flu epidemic, an attack from which he had not fully recovered when he accepted a call to the Queen's Road Congregational church, St. John's, Newfoundland, where his forceful preaching soon attracted record congregations.

The strain of this work upon his undermined constitution proved too severe and he suffered a nervous breakdown, from which now, however, he has completely recovered. Moved by a desire to serve his fellow men he has recently written a letter and tells how he was restored to health and strength.

Moved by Gratitude.

This letter, addressed to The Tanlac Co., Atlanta, Ga., is an eloquent expression of gratitude and is as follows:

"Gentlemen: Your medicine, known as 'Tanlac,' has been such an inestimable blessing to me, that I feel constrained to write and tell you so. In October, 1918, while a ...ister of the Wood Street Con...ational church, Cardiff, South ...s, I had a severe attack of ...fluenza, from the effects ... never fully recovered. ...ty-eight pounds in ...as unable to recover ...gy.

...ebruary, 1919, I be...ister of the Queen's ...ational church at St. ...ndland. My minis...led with great suc...strain proved too ...d I had a serious ... nerves seemed to ...nd my digestion ... that I could eat scarcely anything. My heart gave me at lot of trouble; it was an effort to walk upstairs and at night I used to lie awake in continual dread lest my heart should stop beating altogether.

"Then, as a result of exposure one winter's night in a small boat, while in the execution of my duties, I was seized with violent pains in the right shoulder and arm, which nearly drove me to distraction. I consulted doctors and specialists and underwent massage and electrical treatment, without getting much relief. I was ordered to give up all preaching and public work for at least three months, and I began to fear that my health was permanently affected.

He Had Been Skeptical

"I had always been rather skeptical of the testimonials concerning the merits of any medicine, but one day I read the statement of a man whose symptoms seemed to be identical with my own, and his praise of Tanlac rang so true I decided to give it a trial myself. I bought a bottle and its effect was almost immediate. My nervous condition began to disappear and I began to get sleep at night. My appetite so increased that I could scarcely satisfy it, and I found myself putting on weight rapidly. By the time I had taken the fourth bottle, the pains in my arm and shoulder disappeared and I am feeling better today than for a long time past.

"I feel that I should be guilty of base ingratitude if I did not write and tell you what a boon Tanlac has been to me, and I give you this unsolicited testimonial to use as you may think best, in the hope that others may find in your wonderful medicine the means to restored health and strength."

Tanlac is sold in Jacksonville by Coover & Shreve and by the leading druggist in every town.

HAVE YOU SEEN THE NEW

CHANDLER SIX

The Greatest of All Sixes

See These Cars at the Springfield Show March 2 to 6

Spring'll be Here 'fore You Know It.

—Despite conditions which greatly held back the production of automobiles throughout the early months of the year, nearly twenty thousand discriminating motor car buyers have been made happy and contented by the possession of their new Chandler Cars.

Nothing could more clearly show the regard in which America Holds the Chandler Six, than the patience with which thousands waited for weeks and months for their Chandlers. They waited because they knew what they were waiting for—because they knew it is worth waiting for.

Some are still waiting, but their cars are coming. January production is taking care of many orders, and February has seen the great Chandler plant on a production basis unprecedented in the medium priced fine car field.

When the first warm days of Spring come, and the country roads call, and everyone decides he wants his new car at once, there will be some waiting again.

If you want your new Chandler when you want it, place your order now. If you want to be sure of getting the car of your choice, the greatest of all Sixes beyond question, drop in and see, or phone us now, regardless of what the weather may be. For "Spring'll be here 'fore you know it."

The Chandler Six is made in six different, distinct, beautiful bodies. We can promise early delivery.
